Moab, UT 84532

Dear Mr. Harris:

Subject: Approval of the Operation Plan; Construction Plan with Well Construction Details;  
and Plugging and Abandonment Plan  
UIC Permit Number UTU-19AP-1C3C2E8

The Division of Water Quality (DWQ) has completed a review the following plans:

- Operation Plan,
- Construction Plan with Well Construction Details, and
- Plugging and Abandonment Plan

These plans are hereby approved.

The Monitoring, Recording and Reporting Plan describes the procedures that are currently in place. This part of the plan is also approved.

The Permit issued in May 2015 describes additional monitoring and reporting such as the installation of a continuous monitoring system for each cavern. The Permit provided a compliance schedule for completion of these requirements. As this system is installed and made operational the Monitoring, Recording and Reporting Plan will be updated and will need to be submitted for approval.
